

Energy Assistance
Feb 08, 2014

At a meeting yesterday of the Wis. Towns Association, your board was informed that there is energy assistance available for Wisconsin residents. This may be helpful in light of the high propane prices. If your household income falls into the following:

1 person below 60% of \$24,692 - 2 people below 60% of \$32,290 - 3 persons below 60% of \$39,887 - 4 people below 60% of \$47,485. These figures were taken from the "Income Guidelines 2013 - 2014 WHEAP heating season". If you are eligible log on to - homeenergyplus.wi.gov or call 1-866-432-8947. The same number may be called if your income falls below 80% of these guidelines, for the "Keep Wisconsin Warm Fund" just enacted by the state legislature.
