Snow Removal by Residents

Residents who clear snow from their drives themselves are reminded that during this process no snow can remain on a town road when they have finished clearing snow from their drives. This includes the trickle of snow that escapes from the edges of plows on ATVs. Snow cannot be pushed or blown onto a town road with the expectation that the town plow will remove it. In addition, snow that is pushed onto the right of way (ditch) cannot create a hazard or a dam which could cause flooding. Failure to adhere to the above could result in violations of State Statues 86.04, 346.94, and 86.022. Be a good neighbor and use common sense when removing snow.
